**The conservation of energy, technology absorption, foreign exchange earnings and outgo pursuant to the provisions of Section 134(3) (m) of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014:**

## CONSERVATION OF ENERGY

### 1. Conservation of Electrical Power:

- The company has taken specific initiatives towards conservation of both thermal and electrical energy, usage of alternate / renewable energy.
- Wind energy usage has gone up by 7.3%, from 850 lakh units in FY 2016-17 to 912 lakh units in FY 2017-18. The higher use of renewable power sources has resulted in a reduction of emission of Green House Gases to an equivalent of 90,000 MT CO<sub>2</sub>.
- The Company has also procured power from another renewable source viz., bio mass to an extent of 78 lakh units during the financial year 2017-18. Thus, the total renewable power consumption aggregates to 990 lakh units during the financial year 2017-18, as against 850 lakh units in FY 2016-17.
- All manufacturing units continue to maintain power factor towards unity.
- Your company also focused on energy savings through various energy saving projects as follows:-
  1. Installation of Energy efficient LED lamps / Induction lamps in place of metal halide lamps, tube lights.
  2. Furnaces reinsulated with low heat loss refractories
  3. Introduction of Uninterrupted Power Supply (UPS) for Sealed Quench Furnaces operation to eliminate Diesel Generator operation during quenching thereby eliminating high speed diesel consumption.
  4. Power factor improved by introducing additional capacitor banks
  5. Idling of motors in forging, secondary machines, fume exhaust equipment and pumps avoided by interlock mechanism.
  6. Heat pump technology introduced in place of electrical heaters in furnace pre-cleaning / post-cleaning areas.
  7. Optimisation of air compressor loads by reducing losses and commonising pipelines.
  8. Optimisation of pneumatic systems.
  9. The bio wastes such as Food and Canteen wastes which were let to naturally decompose, are now utilized for production of bio gas. Installation of bio gas plant to generate bio gas from vegetable and food wastes and gas used in place of LPG cylinders in kitchen.
  10. Increasing sealed quench furnaces throughput by reducing cycle time.
  11. Introduction of Variable Frequency Drives (VFD) for various motors.
  12. Elimination of screw conveyor by providing gravity flow for chips.

## ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES FOR THE FINANCIAL YEAR 2017-2018

### 1. Brief Outline of the company's CSR Policy

The Company has framed a CSR Policy pursuant to the Companies Act, 2013. Our corporate social responsibility policy can be accessed at <http://www.sundram.com/investors.php>

#### Our social responsibility initiatives

Sundram Fasteners Limited (the Company) believes that being socially responsible, delivering profitable growth and meeting expectations of our stakeholders is fundamental to preserve the strong reputation of the TVS brand. Further to its corporate social responsibility policy, the company has been constantly creating newer opportunities for the community in which it operates by leveraging its resources. In such process, the company also collaborates with specialist organizations, to have a long-term positive impact in the community surrounding its operations and in remote villages. Among other areas, the company has been primarily focusing on two important socially relevant themes- "*education and healthcare*". The company is strongly progressing in this arena and has been creating its impact on the society by contributing to the development of the community.

#### Educational initiatives

##### *Our School*

The Company founded an English medium higher secondary co-educational school in Aviyur Village in Virudhunagar district of Tamil Nadu 24 years ago to provide high quality education with modern facilities to children. The school is run under the CSR arm of the company - Krishna Educational Society. The Company bears the entire cost of running the school. The project focuses on providing quality education to 474 students from 8 villages near Krishnapuram plant through Sundram Matriculation Higher Secondary School.

##### *Primary education and higher education - Collaborating for positive impact*

In addition to deploying our own resources, the company has worked along with specialist organisations to expand its footprint in support of a project on primary education and higher education. In 30 villages across Kalasapakkam, Thiruvannamalai and (Shoolagiri) Krishnagiri, Tamil Nadu, the Company supports innovation after school classes for 900 children studying in class III to VIII who are from the economically deprived families. The project aims to ensure every child achieves basic competencies in Language, Math and Science.

With a view to support higher education of indigent students, the Company extended support to 10 meritorious

students from Chennai for their undergraduate education, which otherwise they may not be able to afford which will deter them from completing their education.

During the year 2017-2018, the Company's CSR initiative in education benefited 1384 students across Tamil Nadu.

The Company had extended to support to other external educational and welfare schemes.

##### *Support to the underprivileged and marginalized sections of the society*

With a duty of care and concern for the women and the marginalized, who are under distress affected by homelessness and poverty, the company has been extending support for special courses on social work in psychology and social entrepreneurship for students interested in a career in mental health by forging partnerships with specialist institutions.

To further augment our support in this segment, the company has initiated a long-term partnership with The Banyan Academy of Leadership in Mental health (BALM) to co-anchor the "Center for Research and Social Action in Mental Health" – a center focused on transforming mental healthcare services in India. The company's contribution would be only in the areas of Management, Education, Research, Stakeholder Expansion and Advocacy.

#### Healthcare and nutritional support

In view of the widespread inadequacies and inequalities in the rural areas and it is imperative to identify and assess development needs and initiatives required for the community that will address their needs consistently and effectively to ensure a balanced growth. In this context, the company has identified rural health as an important factor in the rural development. The company offers free of cost medical facilities to villages near its Krishnapuram plant (Aviyur, Virudhunagar district near the outskirts of Madurai) thereby benefiting about 2500 families through the programme. The medical centre has a dual role of providing medical care and educating people through training programmes on various health related issues. During the year, the centre has extended support for setting up infrastructure facilities for pediatric cancer treatment in reputed cancer hospital as well as sponsored for pediatric cancer treatment costs as part of its CSR activities.

With an objective to provide balanced nutrition, better education for children and creating employment opportunities for women on a regular basis, the Company in partnership with an organisation having

rural development as its primary focus has supported the project of production and supply of a nutritional supplement (nutriblend) for 972 students in various schools in Thandalam village, Tamil Nadu. Distribution of nutritional supplement is done free of cost to all school students in the village to support their daily nutritional requirement.

**Contribution towards art and culture, and sustainable environment**

With a view to promote art and culture, the Company extended support to a Trust involved in managing Paatshalas for promotion and sustainability of Vedic education and also extended support for preservation of social infrastructure, by contributing for restoration of a temple rajagopuram during the year under review.

Extending its CSR activities for the conservation of flora and fauna and to maintain ecological balance, the Company has supported World Wide Fund-India for a project to assess the ecological needs of the Nilgiri Tahr for conservation planning, addressing current and known threats faced by the Nilgiri Tahr and institutionalization of Nilgiri Tahr monitoring protocols in Tamil Nadu.

**Other social development initiatives by employees of the Company**

SFL has always been encouraging its employees to volunteer their time and effort in CSR initiatives to serve the disadvantaged and make a difference by volunteering at least one working day per year towards a social cause of their choice. Our employees participate in programmes initiated by the Company as well as programmes initiated in association with other organisations and NGOs.

The employees have strongly supported the CSR volunteering movement initiated in the year 2013 and made SFL's CSR motto "SFL and You can make a difference" a reality. In the year, 2017-2018 more than 84% of employees volunteered in various CSR initiatives, in the area of education, health and well-being programmes.

In the year 2017-2018, the participation level in the programme reached an all-time high with more than 80%

of the employees provide monetary contribution towards societal needs.

The Company will continue to strive towards its commitment to be socially responsible and provide avenues to make employees volunteering efforts meaningful and impactful.

Source: Society of Indian Automobile Manufacturers

The automotive industry has produced 29.07 million vehicles during the financial year 2017-2018, which is one of the largest in the world. The Government allows 100% foreign direct investment in automotive industry. The automotive industry is one of the drivers of 'Make in India' initiative of the Government of India. During the year, the disposable income of the rural population was bolstered by normal monsoon and increase in Minimum Support Price (MSP) announced by the Government. The demand for commercial vehicles recovered on back of infrastructure projects undertaken and pick up in mining activity.

During the year, the Government of India signed the Conference of Protocol also known as the Paris Climate Agreement. Being a signatory to the agreement, India is obligated to bring down the carbon footprint by 33-55% from the levels recorded in the past. As a first step in the direction, the Government has introduced Bharat Stage VI (BS VI) emission norms in upgradation of Bharat Stage IV (BS IV) emission norms with effect from April 1, 2020. BS VI is an emission standard that will bring much-needed changes in the Indian automobile industry in terms of pollutant emissions. With this emission norm coming into effect, India will come at par with the US, European countries and other advanced automotive markets across the globe. The above introduction would need manufacturing of new versions of vehicles to comply with BS VI norms, resulting in increased production.

Further, during the year the Supreme Court passed judgement on the need to reduce overloading of vehicles to avoid road accidents, pollution through auto-emissions and significant damage to road surfaces. Meanwhile, steady government push towards infrastructure development and stricter implementation of the ban on overloading of trucks continued to push up sales of commercial vehicles, which will also result in increase in sales in the coming years.

The vehicle scrap policy approved by Government is expected to provide impetus to the auto component industry. The higher allocation towards infrastructure and the rural development in the budget of 2018 is expected to spur demand for commercial vehicles and be overall positive for the auto component industry.

All these measures augur well for the automotive industry, thus paving way for future growth.

## Domestic Sales

Domestic sales (net of excise duty) of the company increased by 17% to ₹ 2,146.76 crores from ₹ 1,836.61 crores. Increase in production of light commercial vehicles and passenger vehicles led to improved domestic sales. There has been a

sharp increase in aftermarket sales due to specific initiatives undertaken by the Company.

## Export Sales:

Export sales of the company increased by 10% to ₹ 1,144.46 Crores from ₹ 1,044.11 crores.

The company's continued investments for manufacturing of new products are expected to result in further improvement in performance in the years ahead.

## Financial Performance

Steel is one of the principal raw materials used by the Company. The steel prices increased steadily during the year. Manpower costs increased due to a general hike in salaries granted to retain talent in a competitive environment as well as increase in dearness allowances in line with cost of living index. Also, provisions have been made for long term wage settlement for unionized employees at various factories, negotiation of which is in progress. Power availability remained firm and costs remained within control throughout the year due to the measures taken by the Company over the years to use alternative sources of power such as wind power.

During the year, PBIDT (Profit before interest, foreign exchange fluctuation, depreciation, exceptional income and tax) was at ₹ 650.37 crores as against ₹ 553.06 crores in the previous year. The operating margin has improved as a result of product mix and stable cost structure.

The Company has made investments in creation of capacities for meeting specific requirements of customers to meet projected demand from domestic and international customers. Financing costs amounted to ₹ 32.56 crores (₹ 36.32 crores). The Company has reduced the finance cost through a combination of competitive sourcing of funds and efficient working capital management.

Depreciation was at ₹ 98.07 crores (₹ 89.77 crores).

Profit before tax was higher at ₹ 519.73 crores (₹ 424.60 crores). After providing for taxes, the Company achieved an all-time record profit of ₹ 367.47 crores (₹ 315.48 crores).

**Capacities and Capital Expenditure**

During the year, the Company has incurred ₹ 217 crores towards capital expenditure on existing and new projects. Capital investments were incurred in tandem with production plans of key customers.

**Quality Systems, Total Quality Management (TQM) and Total Productive Maintenance (TPM)**

The Company had initiated the introduction of new quality system standard IATF 16949:2016, which replaces ISO/TS 16949:2009, which is in line with the revised ISO9001:2015 Quality Management standard (QMS) in all SFL plants that establishes the requirements for a QMS, specifically for the automotive sector. The standard is being horizontally deployed in various divisions / units of the Company.

During the year 2017-18, the company has stepped up the TQM activities at the corporate, divisional and plant levels. TQM Policy Deployment activities were strengthened in all departments and sections of all the divisions in order to properly deploy and achieve the objectives and targets. Besides initiating periodic review of policies of various departments, Daily Work Management activities were strengthened in the shop floor of all the plants with special focus on meeting the policy deployment targets. TQM was also extended to areas like marketing, design and development, human resources and finance.

As a knowledge sharing and knowledge management initiative, the new steps adopted, experiences and results were shared between the divisions and plants to facilitate

horizontal deployment. The Company considers its sub-contractors as business partners and hence necessary support was extended to them to implement TQM measures.

**Awards**

The Company's division located in SEZ has won "Excellence in Export Award - Very Large Category" from Automobile Component Manufacturers Association.

**Human Resources, Industrial Relations, Learning and Development**

SFL prides itself in being a people oriented organisation that commits to the well-being and overall development of its employees. Through various initiatives, the Company has ensured that every employee is actively involved in working towards achieving the Vision of the Company. The Company focusses on employees involving themselves in several activities for continuous improvement.

The Company gives significant impetus to Learning and Education, to ensure that competencies and skills of all employees are upgraded in a systematic manner. All programs offered are contemporary, relevant and with specific learning outcomes. The Company conducts a flagship Leadership Development Program which helps in building a leadership pipeline and support succession planning for the future.

The mentoring program which is more than a decade old has helped employees in various ways to navigate their careers and settle down in the Company with ease.

The Company's in-house journal provides the much needed connect between the employees spread across various locations. The Company provides various welfare measures to employees of which Education Scholarships for employees' children is one such.

The Company's employees whole heartedly participate and volunteer for several CSR activities throughout the year. In the areas of Education, Health and Environment, the employees have adopted several programs and projects and have given their time for working with the underprivileged. The employees also wholeheartedly participate in a payroll giving program.

The Company continues to maintain its blemish-less industrial relations record of not losing even a single day due to industrial strike, since its inception.

**Health, Safety and Environment**

The company strives to manufacture products with zero pollution and zero accidents, by continuous improvements in environmental and occupational health and safety

management systems. The Company accords paramount importance to the health and safety of its employees.

All major factories have obtained certification for conformance to ISO 14001 standards. Our manufacturing facilities at Krishnapuram and Hosur have won Greenco Rating Award from the Confederation of Indian Industry, which testifies our energy efficient practices. Water conservation, usage of renewable energy including solar power, waste management and reduction in use of hazardous chemicals are the prime focus areas in all our manufacturing processes.

### **Internal Control Systems**

The major functions in the company i.e. Sourcing and Procurement, Manufacturing, Costing and Finance and Despatch and Sales are handled through an ERP system which is well integrated. The transactions (end to end) are carried out through the ERP system. Checks and Controls have been built into the system to handle the transactions. Periodically, internal audit checks are done to evaluate the adequacy and relevance of the checks and internal controls. As a process, the systems and controls are benchmarked with the industry.

On an ongoing basis, the management and the Audit Committee reviews the internal controls. Existing internal controls provide adequate assurance to the management for all the transactions covering operations, inventory, fixed assets, financial records and compliance to statutory requirements.

### **Prospects, Risks and concerns**

The OEMs seems to have taken cognizance of the government intent on electric vehicles and started focusing on development of electric vehicle considering long-term challenges and opportunities it offers. The policy of Government with respect to electric vehicles is still in evolving stages and it is essential to see how it could impact traditional vehicles with internal combustion engines. The consistent increase in the oil and steel prices in India is a cause of concern in view of the inflationary effect it can have on the general price level. As per International Monetary Fund (IMF) and World Bank Estimates, India is expected to grow at 7.4% in fiscal year 2018-19 against 6.7% in fiscal year 2017-18, gaining pace to 7.8% in fiscal year 2019-20 and thus India is expected to maintain its growth trajectory and grow faster than major economies.

### **Cautionary Statement**

*Statements in this management discussion and analysis describing the Company's objectives, projections, estimates and expectations may be 'forward looking statements' within the meaning of applicable laws and regulations. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include a downtrend in the automobile industry – global or domestic or both, significant changes in political and economic environment in India or key markets abroad, tax laws, litigation, labour relations, foreign currency fluctuations and interest costs.*

## Section E: Principle-wise performance

### Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability.

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes / No. Does it extend to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others?

Yes. The Code of Business Conduct and Ethics policy covers only the Company.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

From	Received during the year 2017-18	Resolved during the year 2017-18
Shareholders	1	1

The share transfer request received from a shareholder was rejected by the Company due to material difference in the signature in the share transfer form with that of the Register of Members maintained by the Company through the Company's Registrar & Share Transfer Agents. The reasons for rejection of share transfer request was intimated to the Securities and Exchange Board of India in SEBI Complaints Redressal System (SCORES) platform and the complaint raised by the shareholder was disposed of by SEBI during the year.

### Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company is environmentally conscious and is committed in creating, maintaining and ensuring a safe and clean environment. The Company is expanding and strengthening its position in the domestic and export markets, balancing commercial ambitions with environmental concern. The Company, by adopting appropriate green initiatives and practices, ensures to make processes and businesses more environment friendly.

Three products or services whose design has incorporated social or environmental concerns, risks and opportunities:-

- i. Exhaust Brake Valve
- ii. Non-Asbestos Gaskets
- iii. Quill Gear
- iv. Shift Fork
- v. Fasteners and other parts

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

- i. Reduction during sourcing / production / distribution achieved since the previous year throughout the value chain?
- ii. Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Exhaust Brake Valve:

The Exhaust Brake Valve system is used in heavy vehicles to slow down the speed by use of exhaust system. No fire stroke occurs and no fuel is burnt thus, reducing the wear & tear on the regular brakes. This results in lesser fuel consumption and less or no noise.

Non-Asbestos Gaskets:

Non Asbestos gaskets are being used for products such as Water & Oil Pumps replacing asbestos gaskets.

Quill Gear:

Profile which was earlier manufactured through forging route is now manufactured through powder metallurgy route. Cold forging route involved removal of materials to achieve the final shape and hence, waste of material. Since production through powder metallurgy involves "Zero loss" of material, material is conserved.

---

Shift Fork:

While the functional location of the component required alloyed iron powder for high strength and wear resistance, the non-functional portion required unalloyed powder. Technology was developed with mixes of powder (alloyed iron and unalloyed iron powder) and the component was produced, thus saving alloy material.

Fasteners and other parts:

Chrome free coatings (zinc flake coatings) are developed for fasteners which eliminate use of hazardous metals like chromium. Earlier the parts were zinc plated with either trivalent chrome or hexavalent chrome passivation.

Since the corrosion resistance of zinc flake coatings are much higher than zinc plated components, the life cycle has also much improved and replacements are fewer. Thus, sustainability is improved.

Smart Water Pump has been developed by which power consumption is reduced in Internal Combustion (IC) engine / Battery in Electrical Vehicle. Hard Hazardous Chemical/Metals like Cadmium, Mercury, Chromium, Radioactive Substance, Trichloroethylene, Poly-Brominated Biphenyls are not used in any of our products/process of water and oil pumps.

3. Does the company have procedures in place for sustainable sourcing (including transportation)?

## **Independent Auditor's Report**

### **To the Members of Sundram Fasteners Limited**

#### **Report on the Audit of Standalone Indian Accounting Standards ('Ind AS') financial statements**

We have audited the accompanying Standalone Ind AS financial statements of **Sundram Fasteners Limited** ("the Company"), which comprise the standalone balance sheet as at March 31, 2018, the standalone statement of profit and loss, the standalone statement of changes in equity and the standalone statement of cash flows for the year then ended, and summary of significant accounting policies and other explanatory information (herein after referred to as "Standalone Ind AS financial statements").

#### **Management's responsibility for the Standalone Ind AS financial statements**

The Company's board of directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit or loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### **Auditor's responsibility**

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made thereunder.

We conducted our audit of the Standalone Ind AS financial statements in accordance with the standards on auditing specified under Section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

#### **Opinion**

In our opinion, and to the best of our information and according to the explanations given to us, the aforesaid

---

Standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Other Matters**

The Standalone Ind AS financial statements of the Company for the year ended March 31, 2017, were audited by another auditor who expressed an unmodified opinion on those statements on May 24, 2017. Our opinion is not modified in respect to this matter.

#### **Report on other legal and regulatory requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government in terms of Section 143 (11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, we report that:
  - (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - (b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - (c) the standalone balance sheet, the standalone statement of profit and loss, the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this report are in agreement with the books of account;
  - (d) in our opinion, the aforesaid Standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
  - (e) on the basis of written representations received from the directors as on March 31, 2018, taken on record by the board of directors, none of the directors are disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;

- (f) with respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
- (g) with respect to the other matters to be included in the auditor's report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - (i) the Company has disclosed the impact of pending litigations on its financial position in its Standalone Ind AS financial statements – refer note 35(a) to the Standalone Ind AS financial statements;
  - (ii) the Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses;
  - (iii) there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company; and
  - (iv) the disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from November 8, 2016 to December 30, 2016 have not been made since they do not pertain to the financial year ended March 31, 2018. However amounts as appearing in the audited Standalone Ind AS financial statements for the period ended March 31, 2017 have been disclosed - refer note 13 of standalone Ind AS financial statements.

## Annexure A to the Independent Auditor's Report

### To the Members of Sundram Fasteners Limited on the Standalone Ind AS financial statements for the year ended March 31, 2018

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) The inventory, except goods in transit and certain stocks lying with third parties, has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stocks and the book records were not material. For stock lying with third parties at the year end, written confirmations have been obtained by the management.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register required under Section 189 of the Act. Accordingly, paragraph 3(iii) of the Order is not applicable.
- (iv) According to the information and explanations given to us, the Company has complied with the provisions of sections 185 and 186 of the Act with respect to loans, investments, guarantees and security, as applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits as mentioned in the directives issued by Reserve Bank India and the provisions of sections 73 to 76 are any other relevant provisions of the Act and the rules framed thereunder. Accordingly, paragraph 3(v) of the Order is not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under subsection (1) of Section 148 of the Act in respect of products manufactured and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including provident fund, employees state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax and other material statutory dues have generally been regularly deposited by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of cess.
- According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax and other material statutory dues were in arrears as at March 31, 2018 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, the dues set out Appendix I in respect of income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, have not been deposited by the Company on account of disputes.
- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to banks or financial institutions. The Company has not taken any loans or borrowings from government and have not issued any debentures.
- (ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. According to information and explanations given to us, money raised through term loans during the year has been utilised for the purpose for which there were raised.
- (x) According to the information and explanations given to us, no fraud by the Company or any material fraud on the Company by its officers or employees has been noticed or reported during the course of our audit.

## **Annexure B to the Independent Auditor's Report**

**To the Members of Sundram Fasteners Limited on the Standalone Ind AS financial statements for the year ended March 31, 2018**

### **Report on the Internal Financial Controls with reference to financial statements under clause (j) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to financial statements of **Sundram Fasteners Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively as at March 31, 2018 for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the standards on auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical

requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

### **Meaning of Internal financial controls with reference to financial statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures

---

of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent limitations of internal financial controls with reference to financial statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2018, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

# NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts are in crores of Indian Rupees, except share data and as stated)

## 1. Corporate information

Sundram Fasteners Limited ("the Company") is domiciled in India, with its registered office situated at No. 98-A, VII Floor, Dr. Radhakrishnan Salai, Mylapore, Chennai 600 004. The Company has been incorporated under the provisions of the Companies Act, 1956 and its equity shares are listed on the National Stock Exchange ('NSE') and the Bombay Stock Exchange ('BSE') in India. The Company is primarily engaged in manufacture and sale of bolts and nuts, water and oil pumps, sintered products, cold extruded components, hot & warm forged parts, radiator caps and other parts which has applications mainly in automobile industry.

## 2. Basis of preparation

### 2.1 Statement of compliance

These standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The standalone financial statements for the year ended March 31, 2018 (including comparatives) are duly adopted by the Board on May 9, 2018.

Details of the Company's accounting policies are included in note 3.

### 2.2 Functional and presentation currency

These standalone financial statements are presented in Indian Rupees which is also the Company's functional currency. All amounts have been presented in crores of Indian Rupees (₹), except share data and as otherwise stated.

### 2.3 Basis of measurement

The standalone financial statements have been prepared on the historical cost basis except for the following items;

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

### 2.4 Use of estimates and judgments

In preparing these standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

## Significant management judgment

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the standalone financial statements is included in the following notes:

- Note 37 leases: whether an arrangement contains a lease; and
- Note 37 lease classification

## Assumptions and estimation uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is mentioned below. Actual results may be different from these estimates.

### 2.4.1 Recognition of deferred tax assets:

The extent to which deferred tax assets can be recognized is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilized. In addition, careful judgment is exercised in assessing the impact of any legal or economic limits or uncertainties in various tax issues. (also refer note 17)

### 2.4.2 Impairment of financial and non-financial assets

In assessing impairment, management has estimated economic use of assets, the recoverable amount of each asset or cash-generating units based on expected future cash flows and use an interest rate to discount them. Estimation of uncertainty relates to assumptions about future operating cash flows and determination of a suitable discount rate. (also refer note 3.8)

### 2.4.3 Useful lives of depreciable assets

Management reviews its estimate of useful lives of depreciable assets at each reporting date, based on expected utility of assets. Uncertainties in these estimates relate to technological obsolescence that may change utility of assets (also refer note 3.2.4.)

### 2.4.4 Inventories

Management has carefully estimated the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by market-driven changes.

### 2.4.5 Defined benefit obligation (DBO)

The actuarial valuation of the DBO is based on a number of critical underlying management's assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses (also refer note 16)

### 2.4.6 Recognition and measurement of provisions and contingencies:

Key assumptions about the likelihood and magnitude of an outflow of resources (also refer note 3.11 and note 35).

### 2.5 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. The inputs used to measure the fair value of assets or a liability fall into different levels of the fair value hierarchy. Accordingly, the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the low level input that is significant to the entire measurement.

Management uses various valuation techniques to determine fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management based on its assumptions on observable data as far as possible but where it not available, the management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date (also refer note 34). The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

### 2.6 Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

## 3. SUMMARY OF ACCOUNTING POLICIES

These standalone financial statements have been prepared applying significant accounting policies and measurement bases summarized below.

## 1. Revenue recognition

### 1.1 Sale of products:

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. This inter alia involves discounting of the consideration due to the present value if payment extends beyond normal credit terms. It includes excise duty but excludes value added tax, sales tax, service tax and goods and service tax. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the amount of revenue can be measured reliably. The timing of transfers of risks and rewards varies depending on the individual terms of sale.

### 1.2 Revenue from Services:

Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of the transaction at the reporting date based on agreements with customer. The stage of completion is assessed by reference to surveys of work performed.

### 1.3 Interest and dividend income:

Dividend income is recognised in statement of profit or loss on the date on which the Company's right to receive payment is established.

Interest income or expense is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

### 1.4 Rental Income

The Company earns rental income from operating leases of its investment property (also refer note 5). Rental income from investment property is recognised in statement of profit and loss on a straight-line basis over the term of the lease except where the rentals are structured to increase in line with expected general inflation. Rental income from leasing is also recognised in a similar manner.

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

### 2. Property, plant and equipment

#### 2.1 Recognition and measurement

Free hold land is stated at historical cost. Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises:

- purchase price, including import duties and non-refundable taxes on purchase (goods and service tax, value added tax), after deducting trade discounts and rebates.
- any directly attributable cost of bringing the item to its working condition for its intended use estimated costs of dismantling and removing the item and restoring the site on which it is located.
- The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Any gain/ loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

#### 2.2 Subsequent expenditure

Subsequent costs are included in asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company.

#### 2.3 Component accounting

The component of assets are capitalized only if the life of the components vary significantly and whose cost is significant in relation to the cost of the respective asset, the life of the component in assets are determined based on technical assessment and past history of replacement of such components in the assets. The carrying amount of any component accounted for as separate asset is derecognised when replaced.

#### 2.4 Depreciation:

- Depreciation is recognized on a straight-line basis, over useful life of buildings and other equipment as prescribed under Schedule II of Companies Act, 2013, except in respect of certain assets, where useful life is different from those prescribed under Schedule II.
- Depreciation on property, plant and equipment is charged over the estimated useful life of the asset or part of the asset (after considering double/triple shifts) as evaluated on technical assessment on straight line method, in accordance with Part A of Schedule II to the Companies Act, 2013.

- The estimated useful life of the property, plant and equipment on technical assessment followed by the Company is furnished below:

Asset category	Management estimate of useful life (in years)
Buildings	3-60
Plant and machinery	8-30
Furniture and fixtures	8-10
Office equipment	3-10
Vehicles	8-10

- The residual value for all the above assets are retained at 5% of the cost.
- Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if necessary, for each reporting period.
- On property, plant and equipment added / disposed off during the year, depreciation is charged on pro-rata basis for the period for which the asset was purchased and used.

### 3. Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation.

The Company has depreciated assets based on Straight line method as per Schedule II to the Companies Act, 2013. Any gain or loss on disposal of an investment property is recognised in the statement of profit and loss.

### 4. Investments in subsidiaries

Investments in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and carrying amounts are recognized in statement of profit and loss.

### 5. Inventories

Inventories are valued at lower of cost and net realisable value including necessary provision for obsolescence. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and selling expenses. The comparison of cost and net realisable value is made on an item by item basis. The cost of raw materials, components, consumable stores and spare parts are determined using the weighted average method and includes freight, taxes and duties, net of duty credits wherever applicable. Finished goods, including stock in

(All amounts are in crores of Indian Rupees, except share data and as stated)

trade and work-in-progress are valued at lower of cost and net realisable value. Cost includes all direct costs including excise duty and applicable manufacturing overheads incurred in bringing them to their present location and condition.

### 5.1 Raw materials

Raw materials are valued at cost of purchase net of duties and includes all expenses incurred in bringing such materials to the location of its use.

### 5.2 Work-in-progress and finished goods

Work-in-progress and finished goods include conversion costs in addition to the landed cost of raw materials.

### 5.3 Stores, spares and tools

Stores, spares and tools cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

## 6. Leases

### 6.1 Determining whether an arrangement contains a lease

At inception of an arrangement, it is determined whether the arrangement is or contains a lease.

At inception or on reassessment of arrangement that contains a lease, payments and other consideration required by such an arrangement are separated into those for lease and those for other elements on the basis of their relative fair values. If it is concluded for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. The liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the incremental borrowing rate.

### 6.2 Assets held under leases

#### i. Assets leased out

As per terms of lease agreements there is no substantial transfer of risk and reward of the property to the lessee. Accordingly such leased out assets are treated as belonging to the Company.

#### ii. Assets taken on lease

As per the terms of lease agreements there is no substantial transfer of risk and reward of the property to the Company and hence such leases are treated as operating lease.

The payments on operating lease are recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Associated costs, such as maintenance and insurance, are expensed.

### 6.3 Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to

increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Lease incentives received are recognised as an integral part of the total lease expense over the term of the lease.

## 7. Financial instruments

### 7.1 Recognition and initial measurement:

Trade receivables are initially recognised when they are originated.

All other financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value.

The 'trade payable' is in respect of the amount due on account of goods purchased in the normal course of business. They are recognised at their transaction and services availed value if the transaction do not contain significant financing component.

### 7.2 Financial assets

#### 7.2.1 Classification and subsequent measurement of financial assets:

For the purpose of subsequent measurement, financial assets are classified and measured based on the entity's business model for managing financial asset and contractual cash flow characteristics of financial asset at:

- a. Those to be measured at Fair value through other comprehensive Income (FVOCI)
- b. Those to be measured at Fair value through profit and loss (FVTPL) and;
- c. Those measured at amortized cost.
  - i. Financial assets at amortised cost

Includes assets that are held within a business model where objective is to hold financial assets to collect contractual cash flows and contractual terms gives rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

These assets are measured subsequently at amortized cost using the effective interest method. Interest income, foreign exchange gains and losses, if any and impairment are recognised in profit or loss. Any gain or loss on de recognition is recognised in statement of profit and loss.

- ii. Financial assets at Fair Value Through Other Comprehensive Income

Includes assets that are held within a business model where objective is both collecting contractual cash flows and selling financial assets along with contractual terms giving rise on specified dates to cash flows that are solely payments of principal

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

and interest on principal amount outstanding. The Company has made an irrevocable election to present in other comprehensive income changes in the fair value of an investment in an equity instrument that is not held for trading. This selection is made on an instrument-by-instrument basis.

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless it clearly represents a recovery of part or cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

### iii. Financial assets at Fair Value Through Profit or Loss

Financial assets at FVTPL include financial assets that are designated at FVTPL upon initial recognition and financial assets that are not measured at amortised cost or FVOCI. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply. These assets are subsequently measured at fair value with gains or losses recognised in statement of profit and loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The loss allowance in respect of FVTPL at each reporting period is evaluated based on expected credit losses for next 12 months and credit risk exposure. The Company also measures loss allowance for financial instrument at an amount equal to lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. The allowance shall be recognised in statement of profit and loss.

### 7.2.2 Derivative financial instruments and hedge accounting

Derivative financial instruments are accounted for at FVTPL except for derivatives designated as hedging instruments in cash flow hedge relationships, which require a specific accounting treatment. To qualify for hedge accounting, the hedging relationship must meet several strict conditions with respect to documentation, probability of occurrence of the hedged transaction and hedge effectiveness. These arrangements have been entered into to mitigate currency exchange risk arising from certain legally binding sales and purchase orders denominated in foreign currency. For the reporting periods under review, the Company has not designated any forward currency contracts as hedging instruments.

### 7.2.3 De-recognition of financial assets

A financial asset is derecognised only when;

- a. The Company has transferred the rights to receive cash flows from the financial asset or
- b. The Company retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.

Where entity has transferred an asset, the Company examines and assesses whether it has transferred substantially all risk and rewards of ownership of financial asset. In such cases, financial asset is derecognised. Where entity has not transferred substantially all risks and rewards of ownership of financial asset, such financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risk and rewards of ownership of the financial asset, the financial asset is derecognised, if the Company has not retained control of the financial asset. Where the company retains control of the financial asset is continued to be recognised to the extent of continuing involvement in the financial asset.

## 7.3 Financial Liabilities

### 7.3.1 Classification of financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortised cost. The Company's financial liabilities include borrowings, trade and other payables and derivative financial instruments.

### 7.3.2 Subsequent measurement

Financial liabilities are measured subsequently at amortized cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognized in statement of profit and loss.

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because, the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

### 7.3.3 De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or has expired. When

# Sundram Fasteners Limited

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

### 7.4 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

## 8. Impairment

### 8.1 Impairment of financial instruments

The Company recognise loss allowance for expected credit loss on financial assets measured at amortised cost.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit - impaired includes the following observable data:

- significant financial difficulty;
- a breach of contract such as a default or being past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are credit losses that result from all possible default events over expected life of financial instrument.

The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information. The Company assumes that credit risk on a financial asset has increased significantly if it is past due.

The Company considers a financial asset to be in default when:

- the recipient is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is past due.

### 8.1.1 Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

### 8.1.2 Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

### 8.1.3 Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

## 8.2 Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Company's corporate assets (e.g., central office building for providing support to various CGUs) do not generate

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in estimates used to determine recoverable amount. Such a reversal is made only to an extent that asset's carrying amount does not exceed carrying amount that would have been determined, net of depreciation/ amortisation, if no impairment loss was recognised.

### 9. Income Taxes

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. Calculation of current tax is based on tax rates in accordance with tax laws that have been enacted or substantively enacted by the end of the reporting period. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously

Deferred tax is recognised in respect of temporary difference between carrying amount of assets and liabilities for financial reporting purposes and corresponding amounts used for tax purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against

which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised/ recognised, are reviewed at each reporting date and are recognised/ reduced to an extent that it is probable/ no longer probable respectively that related tax benefit will be realised.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by same tax authority on same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or its tax assets and liabilities will be realised simultaneously.

### 10. Post-employment benefits and short-term employee benefits

#### 10.1 Short term employee benefit obligations:

Short term employee benefit obligations are those that are expected to be settled within 12 months after end of reporting period. They are recognised up to end of the reporting period at amounts expected to be paid at the time of settlement.

With respect to bonus, the Company recognises a liability and an expense for bonus. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

#### 10.2 Other long term employee benefit obligations:

These obligation represent liability towards compensated absences that are not expected to be settled wholly within a period of 12 months after end of the period in which the employees render the related service. They are, therefore, recognised and provided for at the present value of the expected future payments to be made in respect of services provided by employee up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

# Sundram Fasteners Limited

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

The obligations are presented as current liabilities in balance sheet if entity does not have an unconditional right to defer settlement for at least twelve months after reporting period, regardless of when the actual settlement is expected to occur.

### 10.3 Post-employment obligation:

The Company operates the post-employment schemes comprising of defined benefit and contribution plans and such as gratuity and group terminal benefit plan, provident fund contributions for its eligible employees.

#### 10.3.1 Gratuity/ group terminal benefit obligation:

The liability or asset recognised in the balance sheet in respect of these defined benefit obligation is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by an Independent actuary using projected unit credit method. The present value of defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on the government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The cost is included in employee benefit expenses in the Statement of Profit and Loss. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in present value of the defined benefit obligation resulting from plan amendment or curtailment are recognised immediately in the statement of profit and loss.

#### 10.3.2 Provident Fund:

The eligible employees of the Company are entitled to receive benefits in respect of provident fund, partly a defined benefit obligation and partly a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employee's salary. The provident fund contributions are made partly to employee provident fund organisation and partly to an irrevocable trust set up by the Company. The Company is liable for annual contributions and any shortfall in the fund assets based on the Government specified minimum rates of return and recognises such contributions and shortfall, if any, as an expense in the year in which it is incurred.

## 11. Provisions, contingent liabilities and contingent assets

### 11.1 Provisions:

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that

can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

### 11.1.1 Provision for warranties:

A provision for warranties is recognised when the underlying products or services are sold. The provision is based on technical evaluation, historical warranty data and a weighting of all possible outcomes by their associated probabilities.

### 11.1.2 Onerous contract:

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

### 11.2 Contingent liabilities:

Whenever there is possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognised because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability are considered as contingent liability.

### 11.3 Contingent assets:

The Company does not recognise contingent assets. These are assessed continually to ensure that the developments are appropriately disclosed in the standalone financial statements.

## 12. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted

average number of shares outstanding during the period are considered for the effects of all dilutive potential equity shares.

### 13. Cash and cash equivalents and cash flow statement

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments maturing within three months from the date of acquisition and which are readily convertible into cash and which are subject to only an insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby profit/ (loss) before extraordinary items and tax is appropriately classified for the effects of transactions of non-cash nature and any deferrals or accruals of past or future receipts or payments. In cash flow statement, cash and cash equivalents include cash in hand, balances with banks in current accounts and other short- term highly liquid investments with original maturities of three months or less.

### 14. Segment reporting

The Company is engaged in manufacture and sale of bolts and nuts, water and petrol pumps, sintered products, cold extruded components, hot & warm forged parts, radiator caps and other parts which largely have applications primarily in automobile industry and thus the Company has only one reportable segment.

### 15. Government grants

Government grants and subsidies are recognised when there is reasonable assurance that the conditions attached to them will be complied and grant/subsidy will be received. Government grants relating to income are deferred and recognized in the statement of profit and loss over the period necessary to match them with the costs that they intended to compensate and presented in other operating revenues. Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

### 16. Foreign currency transactions

In preparing standalone financial statements, transactions in currencies other than Company's functional currency (i.e. foreign currencies) are recognised at rates of exchange prevailing on date of transactions or an average rate if average rate approximates actual rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign

currency are translated into functional currency at exchange rate when fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

### 17. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred under finance costs. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to interest costs.

### 3A. New standards and amendment to existing standards issued but not yet effective

#### New Standard - Ind AS 115, Revenue from Contracts with Customers

Ind AS 115, establishes a comprehensive framework for determining whether, how much and when revenue should be recognised. It replaces existing revenue recognition guidance, including Ind AS 18 on Revenue, Ind AS 11 on Construction Contracts and Guidance Note on Accounting for Real Estate Transactions. This standard is effective from annual periods beginning on or after April 1, 2018 and will be applied accordingly. In this regard, the Company is in process of carrying out assessment of potential impact on adoption of Ind AS 115 on accounting policies followed and accordingly impact on its standalone financial statements on initial application of this standard is not reasonably estimable at present.

#### Amendment to existing standard - Ind AS 21 – The effect of changes in Foreign Exchange rates

The amendment to Ind AS 21 clarifies on accounting of transactions that include receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. In this regard, the Company is in the process of carrying out its initial assessment of potential impact on adoption of this amendment on accounting policies followed in its standalone financial statements.

**d) Rights, preferences and restrictions****Equity shares**

The Company has only one class of equity shares having a par value of ₹ 1/- per share. Each holder of equity share is entitled to one vote per share. The Company declares and pays dividends in Indian Rupees. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

### a) Provision for employee benefits

#### Defined benefit plans:

The Company operates post-employment defined benefit plans comprising of gratuity plan, group terminal benefit plan and an exempted provident fund managed through trust. The post employment benefit in the form of gratuity is managed and administered by Life Insurance Corporation of India. The provident fund contributions to trust are managed through trust investments in addition to contribution of a portion of its provident fund liability to employees provident fund organisation. The group terminal benefit plan is made available to certain class of employees and the same is unfunded. The Company obtains an actuarial valuation from an independent actuary measured using projected unit credit method to determine the liability as at the reporting date.

The post-employment defined benefit plans operated by the Company are as follows;

#### i) Gratuity

The following tables summarise the components of net benefit expenses recognised in the statement of profit and loss, the funded status and amounts recognised in the balance sheet towards Gratuity.

The Company has its defined benefit gratuity plan as per the Payment of Gratuity Act, 1972. Under this legislation, employee who has completed five years of service is entitled to specific benefit. The level of benefit provided depends on the employee's length of service and salary at retirement/ termination age. The gratuity plan is a funded plan and the Company makes its contributions to a recognised fund in India.

The Company's Gratuity plan valuation report includes employee benefits of the Company and its subsidiaries (i) TVS Upasana Limited, Chennai; (ii) Sundram Precision Components Limited, Chennai; and (iii) TVS Infotech Limited, Chennai. Based on an entity specific actuarial valuation obtained in this respect, the amounts are recognised in the Company's standalone financial statements. **iii) Provident Fund**

All eligible employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and employer (at a determined rate) contribute monthly. The company also contributes as specified under the law, in case of certain class of employees, to a provident fund trust set up and to respective Regional Provident Fund Commissioner. The Company's contribution to the Provident Fund, where set up as a trust, is liable for future provident fund benefits to the extent of its annual contribution and any shortfall in fund assets based on government specified minimum rates of return relating to current period service and recognizes such contributions and shortfall, if any as an expense in the year incurred. In accordance with an actuarial valuation, there is no deficiency in the interest cost as the present value of the expected future earnings on the fund is greater than the expected amount to be credited to the individual members based on the expected guaranteed rate of interest. Such contributions made into the fund and to the Regional Provident Fund Commissioner during the year are recognized as an expense in the statement of profit and loss.

#### Fair value measurement hierarchy

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data

### A Accounting classification and fair values (Contd.)

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the standalone financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

### B Measurement of fair values

The following table shows the valuation techniques used in measuring Level 2 and Level 3 fair values for financial instruments measured at fair value in balance sheet including the related valuation techniques used

Type	Valuation technique used	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Investments	Market comparison technique: The valuation model is based on market multiple derived from quoted prices of companies comparable to the investee and the expected EBITDA of the investee. The estimate is adjusted for the effect of non-marketability of the equity securities.	- EBITDA margin - Adjusted market multiple - Adjustment for non-marketability of equity securities	The estimated fair value would increase/ (decrease) if: - EBITDA margin were higher/ (lower) - Adjusted market multiple were higher/ (lower) - Adjustment for non-marketability of equity securities were lower/ (higher)
Derivative liabilities	Market comparison technique: The fair value is determined using quoted forward exchange rates at the reporting dates based on information obtained from respective bankers.	Not applicable	Not applicable

### C Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Market risk
- Credit risk
- Liquidity risk

#### Financial risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors along with the top management are responsible for developing and monitoring the Company's risk management policies. The Company's senior management advises on financial risks and the appropriate financial risk governance framework for the Company.

The Company's risk management policies established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

The Company's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support the operations of its group Companies. The Company's principal financial assets include loans, trade and other receivables, investments and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Company. The Company uses derivative financial instruments, such as foreign exchange forward contracts to hedge foreign currency risk exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

The sources of risks which the company is exposed to and their management is given below:

### a) Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings. The Company is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk and certain other price risks, which result from both its operating and investing activities.

### i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the foreign currency borrowings, import of raw materials and spare parts, capital expenditure, export sales and the Company's net investments in foreign subsidiaries.

Currency risk (or foreign exchange risk) arises on financial instruments that are denominated in a foreign currency, i.e. in a currency other than the functional currency in which they are measured. For the purpose of Ind AS, currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency.

The Company manages its foreign currency risk by hedging transactions through forward contracts, for the repayment of short and long term borrowings and payables arising out of procurement of raw materials and other components. When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure.

Where the amounts to be paid and received in a specific currency are expected to largely offset one another, no further hedging activity is undertaken.

Foreign currency denominated financial assets and liabilities which expose the Company to currency risk are disclosed below. The amounts shown are those reported translated at the closing rate. Unhedged foreign currency risk exposure at the end of the reporting period has been expressed in Rupees.

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

### Foreign currency sensitivity

The following table illustrates the sensitivity of profit and equity with respect to the Company's financial assets and financial liabilities and the Rs/USD exchange rate and Rs./GBP exchange rate 'all other things being equal'. If the Indian Rupee had strengthened/ weakened against the respective currency 5% during the year ended March 31, 2018 (March 31, 2017: 5%), then this would have had the following impact on profit before tax and equity:

The sensitivity analysis is based on the Company's foreign currency financial instruments held at each reporting date.

	Strengthening		Weakening	
	Year ended March 31 2018	Year ended March 31 2017	Year ended March 31 2018	Year ended March 31 2017

	14.58	23.38	(14.58)	(23.38)

### Derivative instruments

The Company holds derivative financial instruments such as foreign currency forward to mitigate the risk of changes in exchange rates on foreign currency exposure arising from settlement of borrowings. The counterparties of these contracts are generally banks. These derivative financial instruments are determined using quoted forward exchange rates at the reporting dates based on information obtained from respective bankers.

### ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

The Company constantly monitors the credit markets and rebalances its financing strategies to achieve an optimal maturity profile and financing cost. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings. As at March 31, 2018, approximately 37% (March 31, 2017: 69%) of the Company's borrowings are at a fixed rate of interest.

### Interest rate exposure

Particulars	Floating rate borrowings	Fixed rate borrowings	Total borrowings
Rupee loans	72.40	210.00	282.40
USD loans	279.54	-	279.54
<b>As at March 31, 2018</b>	<b>351.94</b>	<b>210.00</b>	<b>561.94</b>
Rupee loans	22.41	369.00	391.41
USD loans	170.86	63.88	234.74
<b>As at March 31, 2017</b>	<b>193.27</b>	<b>432.88</b>	<b>626.15</b>

(All amounts are in crores of Indian Rupees, except share data and as stated)

**Interest rate sensitivity**

The following table illustrates the sensitivity of profit and equity to a reasonably possible change in interest rates of +/- 1% for the year ended March 31, 2018 and March 31, 2017. These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

		As at March 31, 2018	As at March 31, 2017
Increase	+1%	3.52	1.93
Decrease	-1%	(3.52)	(1.93)

The Company does not expect any change in interest rates on fixed rate borrowings and accordingly have not presented any sensitivities on such borrowings.

**Equity price risk**

The Company has invested in listed and unlisted equity instruments. All investments in equity portfolio are reviewed and approved by the board of directors.

As at the reporting date, the exposure to listed equity securities at fair value was ₹ 14.31 (March 31, 2017: ₹ 11.78)

**b) Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including, foreign exchange transactions and other financial instruments.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of the Company's trade receivables, certain loans and advances and other financial assets. The Company enters into long term contracts with its customers whereby it mitigates the risk exposure on high risk customers. Further, none of the customers contributes to more than 10% of the Company's total revenues as continuous efforts are made in expanding its customer base. Outstanding customer receivables are regularly monitored and reviewed by the Audit committee periodically.

The carrying amount of financial assets represents the maximum credit exposure.

(All amounts are in crores of Indian Rupees, except share data and as stated)

### (i) Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including end-user customers, their geographic location, industry, trading history with the Company and existence of previous financial difficulties. With respect to other financial assets, the Company does not expect any credit risk against such assets except as already assessed. The Company is monitoring the economic environment in the country and is taking actions to limit its exposure to customers with customers experiencing particular economic volatility.

Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivable and other financial assets, which comprise large number of small balances, based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Further, the Company also makes an allowance for doubtful debts on a case to case basis.

The maximum exposure to credit risk for trade and other receivables are as follows:

	As at March 31, 2018	As at March 31, 2017
Not more than 180 days	671.24	538.40
More than 180 days	9.66	27.74
<b>Sub-total</b>	<b>680.90</b>	566.14
Less: Loss allowance in accordance with expected credit loss model	(2.93)	(1.88)
<b>Total</b>	<b>677.97</b>	564.26

The management also assesses the credit losses on account of the financial guarantees extended by the Company. The management evaluates the credit risk associated with these companies, ability of them to repay the debts and probable exposure of the Company, in case a group Company fails to make payment when due in accordance with the original or modified terms of a debt instrument of such group Company.

### (ii) Investments

Investments of surplus funds are made only with approval of Board of Directors. Investments primarily include investments in equity instruments of various listed entities, power generation companies, mutual funds and other trade investments. The Company does not expect significant credit risks arising from these investments.

### (iii) Loans

	As at March 31, 2018	As at March 31, 2017
Loans to related parties	5.82	5.81
Loans to employees	2.88	3.38
<b>Net carrying amount</b>	<b>8.70</b>	9.19

The balance is primarily constituted by loans given to related parties and to its employees. The Company does not expect any loss from non-performance by these counter-parties.

### (iv) Cash and cash equivalents and Bank balances other than mentioned in cash and cash equivalents

The Company has its cash and bank balances deposited with credit worthy banks as at the reporting date. The Company does not expect any loss from non-performance by these counter-parties.

### (v) Others

Other financial assets comprising of security deposits, interest receivable and advance recoverable primarily consists of deposits with TNEB for obtaining Electricity connections, rental deposits given for lease of premises. The Company does not expect any loss from non-performance by these counter-parties.

**c) Liquidity risk**

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

The Company's objective is to maintain a current ratio with an optimal mix of short term loans and long term loans. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding and debt maturing within 12 months and the management is confident that it can roll over its debts with existing lenders. The Board of Directors periodically reviews the Company's business requirements vis-a-vis the source of funding.

The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted payments

## **Independent Auditor's Report**

### **To the Members of Sundram Fasteners Limited**

#### **Report on the Audit of Consolidated Indian Accounting Standards ('Ind AS') financial statements**

We have audited the accompanying Consolidated Ind AS financial statements of **Sundram Fasteners Limited** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at March 31, 2018, the consolidated statement of profit and loss, the consolidated statement of changes in equity and the consolidated cash flow statement, for the year then ended, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Consolidated Ind AS financial statements").

#### **Management's responsibility for the Consolidated Ind AS financial statements**

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated state of affairs, consolidated profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as

applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

#### **Auditor's responsibility**

Our responsibility is to express an opinion on these Consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made thereunder.

We conducted our audit in accordance with the standards on auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's directors, as well as evaluating the overall presentation of the Consolidated Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Group to cease to continue as a going concern.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

## Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid Consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2018, and their consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year ended on that date.

## Other Matters

(a) We did not audit the financial statements/ financial information of seven subsidiaries, whose financial statements/ financial information reflect total assets of ₹ 619.51 crores, total revenues of ₹ 315.51 crores and net cash outflows amounting to ₹ 9.68 crores as of and for the year ended March 31, 2018, as considered in the Consolidated Ind AS financial statements. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the Consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Certain of these subsidiaries are located outside India, whose financial statements and other financial information as at December 31, 2017, have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

(b) We did not audit the financial statements / financial information of two subsidiaries, whose financial statements / financial information reflect total assets of ₹ 7.14 crores, total revenues of ₹ 23.06 crores and net cash inflows amounting to ₹ 1.52 crores as of and for the year ended March 31, 2018, as considered in the Consolidated Ind AS financial statements. These financial statements / financial information are unaudited and have been furnished to us by the management and our opinion on the Consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the management, these financial statements / financial information are not material to the Group.

## **Annexure A to the Independent Auditor's Report**

**To the Members of Sundram Fasteners Limited on the Consolidated Ind AS financial statements for the year ended March 31, 2018**

### **Report on the Internal Financial Controls with reference to financial statements under clause (j) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to financial statements of **Sundram Fasteners Limited** ("the Holding Company"), as of March 31, 2018 in conjunction with our audit of the Consolidated Ind AS financial statements of the Holding Company and its subsidiary companies incorporated in India, for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The respective board of directors of the Holding Company and its subsidiary companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Holding Company and subsidiary companies incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively as at March 31, 2018 for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Holding Company and subsidiary companies incorporated in India, internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the standards on auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial

controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their report referred to in the Other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's and its subsidiary company's incorporated in India, internal financial controls system with reference to financial statements.

### **Meaning of Internal financial controls with reference to financial statements**

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Annexure B to the Independent Auditor's Report**

**To the Members of Sundram Fasteners Limited on the Consolidated Ind AS financial statements for the year ended March 31, 2018**

**Inherent Limitations of Internal financial controls with reference to financial statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Holding Company and its subsidiary companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2018, based on the internal control with reference to financial statements criteria established by the Holding Company and its

subsidiary incorporated in India considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

**Other Matters**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to three subsidiary companies and one step-down subsidiary, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts are in crores of Indian Rupees, except share data and as stated)

## 1. Corporate information

Sundram Fasteners Limited (“the Company”) is domiciled in India, with its registered office situated at No. 98-A, VII Floor, Dr. Radhakrishnan Salai, Mylapore, Chennai 600004. The Company has been incorporated under the provisions of the Companies Act, 1956 and its equity shares are listed on the National Stock Exchange (‘NSE’) and the Bombay Stock Exchange (‘BSE’) in India. These consolidated financial statements comprise the Company and its subsidiaries (referred to collectively as the ‘Group’). The Group is primarily engaged in manufacture and sale of bolts and nuts, water and oil pumps, sintered products, cold extruded components, hot and warm forged parts, radiator caps and other parts which have applications mainly in automobile industry.

## 2. Basis of preparation

### 2.1 Statement of compliance

These consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the ‘Act’) and other relevant provisions of the Act.

The consolidated financial statements for the year ended March 31, 2018 (including comparatives) are authorised by the Board on May 9, 2018.

Details of the Group’s accounting policies are included in note 3.

### 2.2 Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees which is also the Group’s functional currency. All amounts have been presented in crores of Indian Rupees (₹), except share data and as otherwise stated.

### 2.3 Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis except for the following items;

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

### 2.4 Use of estimates and judgments

In preparing these consolidated financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

### Significant management judgment

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the consolidated financial statements is included in the following notes:

- Note 39 leases: whether an arrangement contains a lease; and
- Note 39 lease classification

### Assumptions and estimation uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is mentioned below. Actual results may be different from these estimates.

#### 2.4.1 Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilized.

In addition, careful judgment is exercised in assessing the impact of any legal or economic limits or uncertainties in various tax issues. (also refer note 18)

#### 2.4.2 Impairment of financial and non-financial assets

In assessing impairment, management has estimated economic use of assets, the recoverable amount of each asset or cash-generating units based on expected future cash flows and use an interest rate to discount them. Estimation of uncertainty relates to assumptions about future operating cash flows and determination of a suitable discount rate. (also refer note 3.8)

#### 2.4.3 Useful lives of depreciable assets

Management reviews its estimate of useful lives of depreciable assets at each reporting date, based on expected utility of assets. Uncertainties in these estimates relate to technological obsolescence that may change utility of assets (also refer note 3.3.4)

#### 2.4.4 Inventories

Management has carefully estimated the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by market-driven changes.

#### 2.4.5 Defined benefit obligation (DBO)

The actuarial valuation of the DBO is based on a number of critical underlying management’s assumptions such as standard rates of inflation, mortality, discount rate and

(All amounts are in crores of Indian Rupees, except share data and as stated)

anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses (also refer note 17)

### 2.4.6 Recognition and measurement of provisions and contingencies

Key assumptions about the likelihood and magnitude of an outflow of resources (also refer note 3. 11 and 36)

### 2.5 Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. The inputs used to measure the fair value of assets or a liability fall into different levels of the fair value hierarchy. Accordingly, the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the low level input that is significant to the entire measurement.

Management uses various valuation techniques to determine fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management based on its assumptions on observable data as far as possible but where it is not available, the management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date. The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

### 2.6. Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

### 3. Summary of accounting policies

These consolidated financial statements have been prepared applying significant accounting policies and measurement bases summarized below.

#### 1. Basis of consolidation

##### Business combinations

As part of its transition to Ind AS, the Group has elected to apply the relevant Ind AS, viz. Ind AS 103, Business Combinations, to only those business combinations that occurred on or after April 1, 2015. In accordance with Ind AS 103, the Group accounts for these business combinations using the acquisition method when control is transferred to the Group. The consideration transferred for the business combination is generally measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in OCI and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred, except to the extent related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships with the acquiree. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured subsequently and settlement is accounted for within equity. Other contingent consideration is re-measured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit or loss.

If a business combination is achieved in stages, any previously held equity interest in the acquiree is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

#### i. Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

#### ii. Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

### iii. Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in profit or loss.

### iv. Equity accounted investees

The Group's interests in equity accounted investees comprise interests in associates and joint ventures.

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and joint ventures are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and OCI of equity-accounted investees until the date on which significant influence or joint control ceases.

### v. Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

## 2. Revenue recognition

### 2.1 Sale of products:

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. This inter alia involves discounting of the consideration due to the present value if payment extends beyond normal credit terms. It includes excise duty but excludes value added tax, sales tax, service tax and goods and service tax. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the

amount of revenue can be measured reliably. The timing of transfers of risks and rewards varies depending on the individual terms of sale.

### 2.2 Revenue from Services:

Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of the transaction at the reporting date based on agreements with customer. The stage of completion is assessed by reference to surveys of work performed.

### 2.3 Interest and dividend income:

Dividend income is recognised in statement of profit and loss on the date on which the Group's right to receive payment is established.

Interest income or expense is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

### 2.4 Rental Income

The Group earns rental income from operating leases of its investment property (also refer note 5). Rental income from investment property is recognised in statement of profit and loss on a straight-line basis over the term of the lease except where the rentals are structured to increase in line with expected general inflation. Rental income from leasing is also recognised in a similar manner.

## 3. Property, plant and equipment

### 3.1 Recognition and measurement

Free hold land is stated at historical cost. Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises:

1. purchase price, including import duties and non-refundable taxes on purchase (goods and service tax, value added tax), after deducting trade discounts and rebates.

# Sundram Fasteners Limited

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

2. any directly attributable cost of bringing the item to its working condition for its intended use estimated costs of dismantling and removing the item and restoring the site on which it is located.

3. The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Any gain / loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

### 3.2 Subsequent expenditure

Subsequent costs are included in asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group.

### 3.3 Component accounting

The component of assets are capitalized only if the life of the components vary significantly and whose cost is significant in relation to the cost of the respective asset, the life of the component in assets are determined based on technical assessment and past history of replacement of such components in the assets. The carrying amount of any component accounted for as separate asset is derecognised when replaced.

### 3.4 Depreciation:

- Depreciation is recognized on a straight-line basis, over useful life of buildings and other equipment as prescribed under Schedule II of Companies Act, 2013, except in respect of certain assets, where useful life is different from those prescribed under Schedule II.
- Depreciation on property, plant and equipment is charged over the estimated useful life of the asset or part of the asset (after considering double/triple shifts) as evaluated on technical assessment on straight line method, in accordance with Part A of Schedule II to the Companies Act, 2013.
- The estimated useful life of the property, plant and equipment on technical assessment followed by the Group is furnished below:

Asset category	Management estimate of useful life (in years)
Buildings	3-60
Plant and machinery	8-30
Furniture and fixtures	8-10
Office equipment	3-10
Vehicles	8-10

d. The residual value for all the above assets are retained at 5% of the cost.

e. Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if necessary, for each reporting period.

f. On property, plant and equipment added/ disposed off during the year, depreciation is charged on pro-rata basis for the period for which the asset was purchased and used.

### 4. Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation.

The Group has depreciated assets based on Straight line method as per Schedule II to the Companies Act 2013. Any gain or loss on disposal of an investment property is recognised in the statement of profit and loss.

### 5. Inventories

Inventories are valued at lower of cost and net realizable value including necessary provision for obsolescence. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and selling expenses. The comparison of cost and net realisable value is made on an item by item basis. The cost of raw materials, components, consumable stores and spare parts are determined using the weighted average method and includes freight, taxes and duties, net of duty credits wherever applicable. Finished goods, including stock in trade and work in progress are valued at lower of cost and net realisable value. Cost includes all direct costs including excise duty and applicable manufacturing overheads incurred in bringing them to their present location and condition.

#### 5.1 Raw materials

Raw materials are valued at cost of purchase net of duties and includes all expenses incurred in bringing such materials to the location of its use.

#### 5.2 Work-in-progress and finished goods

Work-in-progress and finished goods include conversion costs in addition to the landed cost of raw materials.

#### 5.3 Stores, spares and tools

Stores, spares and tools cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

### 6. Leases

#### 6.1 Determining whether an arrangement contains a lease

At inception of an arrangement, it is determined whether the arrangement is or contains a lease.

At inception or on reassessment of arrangement that contains a lease, payments and other consideration required by such an arrangement are separated into those for lease and those for other elements on the basis of their relative fair values. If it is concluded for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. The liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the incremental borrowing rate.

#### 6.2 Assets held under leases

##### i. Assets leased out

As per terms of lease agreements there is no substantial transfer of risk and reward of the property to the lessee. Accordingly such leased out assets are treated as belonging to the Group.

##### ii. Assets taken on lease

As per the terms of lease agreements there is no substantial transfer of risk and reward of the property to the Group and hence such leases are treated as operating lease.

The payments on operating lease are recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Associated costs, such as maintenance and insurance, are expensed.

#### 6.3 Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Lease incentives received are recognised as an integral part of the total lease expense over the term of the lease.

### 7. Financial instruments

#### 7.1 Recognition and initial measurement

Trade receivables are initially recognised when they are originated.

All other financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs,

except for those carried at fair value through profit or loss which are measured initially at fair value.

The 'trade payable' is in respect of the amount due on account of goods purchased in the normal course of business. They are recognised at their transaction and services availed value if the transaction do not contain significant financing component.

#### 7.2 Financial assets

##### 7.2.1 Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified and measured based on the entity's business model for managing financial asset and contractual cash flow characteristics of financial asset at:

- a. Those to be measured at Fair value through other comprehensive Income (FVOCI)
  - b. Those to be measured at Fair value through profit and loss (FVTPL) and;
  - c. Those measured at amortized cost.
- i. Financial assets at amortised cost

Includes assets that are held within a business model where objective is to hold financial assets to collect contractual cash flows and contractual terms gives rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

These assets are measured subsequently at amortized cost using the effective interest method. Interest income, foreign exchange gains and losses, if any and impairment are recognised in profit or loss. Any gain or loss on de-recognition is recognised in statement of profit and loss.

ii. Financial assets at Fair Value Through Other Comprehensive Income

Includes assets that are held within a business model where objective is both collecting contractual cash flows and selling financial assets along with contractual terms giving rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding. The Group has made an irrevocable election to present in other comprehensive income changes in the fair value of an investment in an equity instrument that is not held for trading. This selection is made on an instrument-by-instrument basis.

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless it clearly represents a recovery of part of cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

# Sundram Fasteners Limited

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

### iii. Financial assets at Fair Value Through Profit or Loss (FVTPL)

Financial assets at FVTPL include financial assets that are designated at FVTPL upon initial recognition and financial assets that are not measured at amortised cost or FVOCI. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply. These are measured at fair value with gains or losses recognized in the statement of profit and loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The loss allowance in respect of FVTPL at each reporting period is evaluated based on expected credit losses for next 12 months and credit risk exposure. The Group also measures loss allowance for financial instrument at an amount equal to lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. The allowance shall be recognised in statement of profit or loss.

### 7.2.2 Derivative financial instruments and hedge accounting

Derivative financial instruments are accounted for at FVTPL except for derivatives designated as hedging instruments in cash flow hedge relationships, which require a specific accounting treatment. To qualify for hedge accounting, the hedging relationship must meet several strict conditions with respect to documentation, probability of occurrence of the hedged transaction and hedge effectiveness. These arrangements have been entered into to mitigate currency exchange risk arising from certain legally binding sales and purchase orders denominated in foreign currency. For the reporting periods under review, the Group has not designated any forward currency contracts as hedging instruments.

### 7.2.3 De-recognition of financial assets

A financial asset is derecognised only when;

- a. The Group has transferred the rights to receive cash flows from the financial asset or
- b. The Group retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.

Where entity has transferred an asset, the Group examines and assesses whether it has transferred substantially all risk and rewards of ownership of financial asset. In such cases, financial asset is derecognised. Where entity has not transferred substantially all risks and rewards of ownership of financial asset, such financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risk and rewards of ownership of the financial asset, the financial asset is derecognised, if the

Group has not retained control of the financial asset. Where the Group retains control of the financial asset is continued to be recognised to the extent of continuing involvement in the financial asset.

## 7.3 Financial Liabilities

### 7.3.1 Classification of financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortised cost. The Group's financial liabilities include borrowings, trade and other payables and derivative financial instruments.

### 7.3.2 Subsequent measurement

Financial liabilities are measured subsequently at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognized in statement of profit and loss.

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because, the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

### 7.3.3 De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

## 7.4 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

## 8. Impairment

### 8.1 Impairment of financial instruments

The Group recognise loss allowance for expected credit loss on financial assets measured at amortised cost.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty;
- a breach of contract such as a default or being past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are credit losses that result from all possible default events over expected life of financial instrument.

The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward looking information. The Group assumes that credit risk on a financial asset has increased significantly if it is past due.

The Group considers a financial asset to be in default when:

- the recipient is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is past due.

### 8.1.1 Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

### 8.1.2 Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

### 8.1.3 Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

### 8.2 Impairment of non-financial assets

The Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Group's corporate assets (e.g., central office building for providing support to various CGUs) do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro-rata basis.

An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets for which impairment loss has been recognised in prior periods, the Group reviews at each reporting date whether there is any indication that loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in estimates used to determine recoverable amount. Such a reversal is made only to an extent that asset's carrying amount does not

(All amounts are in crores of Indian Rupees, except share data and as stated)

exceed carrying amount that would have been determined, net of depreciation/ amortisation, if no impairment loss was recognised.

### 9. Income Taxes

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. Calculation of current tax is based on tax rates in accordance with tax laws that have been enacted or substantively enacted by the end of the reporting period. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax is recognised in respect of temporary difference between carrying amount of assets and liabilities for financial reporting purposes and corresponding amounts used for tax purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised / recognised, are reviewed at each reporting date and are recognised/ reduced to an extent that it is probable / no longer probable respectively that related tax benefit will be realised.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set-off against future income tax liability.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the

liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by same tax authority on same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or its tax assets and liabilities will be realised simultaneously.

### 10. Post-employment benefits and short-term employee benefits

#### a. Short term employee benefit obligations:

Short term employee benefit obligations are those that are expected to be settled within 12 months after end of reporting period. They are recognised up to end of the reporting period at amounts expected to be paid at the time of settlement.

With respect to bonus, the Group recognises a liability and an expense for bonus. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

#### b. Other long term employee benefit obligations:

These obligation represent liability towards compensated absences that are not expected to be settled wholly within a period of 12 months after end of the period in which the employees render the related service. They are, therefore, recognised and provided for at the present value of the expected future payments to be made in respect of services provided by employee up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

The obligations are presented as current liabilities in balance sheet if entity does not have an unconditional right to defer settlement for at least twelve months after reporting period, regardless of when the actual settlement is expected to occur.

#### c. Post-employment obligation:

The Group operates the post-employment schemes comprising of defined benefit and contribution plans and such as gratuity and group terminal benefit plan, provident fund contributions for its eligible employees.

#### i. Gratuity/group terminal benefit obligation:

The liability or asset recognised in the balance sheet in respect of these defined benefit obligation is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined

benefit obligation is calculated annually by an Independent actuary using projected unit credit method. The present value of defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on the government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The cost is included in employee benefit expenses in the Statement of Profit and Loss. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in present value of the defined benefit obligation resulting from plan amendment or curtailment are recognised immediately in the statement of profit and loss.

### ii. Provident Fund:

The eligible employees of the Group are entitled to receive benefits in respect of provident fund, partly a defined benefit obligation and partly a defined contribution plan, in which both employees and the Group make monthly contributions at a specified percentage of the covered employee's salary. The provident fund contributions are made partly to Employees' Provident Fund Organisation and partly to an irrevocable trust set up by the Group. The Group is liable for annual contributions and any shortfall in the fund assets based on the Government specified minimum rates of return and recognises such contributions and shortfall, if any, as an expense in the year in which it is incurred.

## 11. Provisions and contingent liabilities

### a. Provisions:

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

#### 11.1.1 Provision for warranties

A provision for warranties is recognised when the underlying products or services are sold. The provision is based on technical evaluation, historical warranty data and a weighing of all possible outcomes by their associated probabilities.

#### 11.1.2 Onerous contract

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

### b. Contingent liabilities:

Whenever there is possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognised because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability are considered as contingent liability.

### c. Contingent assets:

The Group does not recognise contingent assets. These are assessed continually to ensure that the developments are appropriately disclosed in these consolidated financial statements.

## 12. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are considered for the effects of all dilutive potential equity shares.

## 13. Cash and cash equivalents and cash flow statement

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments maturing within three months from the date of acquisition and which are readily convertible into cash and which are subject to only an insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is appropriately classified for the effects of transactions of

non-cash nature and any deferrals or accruals of past or future receipts or payments. In cash flow statement, cash and cash equivalents include cash in hand, balances with banks in current accounts and other short-term highly liquid investments with original maturities of three months or less.

### 14. Segment reporting

The Group is engaged in the manufacture and sale of bolts and nuts, water and petrol pumps, sintered products, cold extruded components, hot & warm forged parts, radiator caps and other parts which largely have applications primarily in automobile industry and thus the Group has only one reportable segment.

### 15. Government grants

Government grants and subsidies are recognised when there is reasonable assurance that the conditions attached to them will be complied and grant/subsidy will be received. Government grants relating to income are deferred and recognized in the statement of profit and loss over the period necessary to match them with the costs that they intended to compensate and presented in other operating revenues. Grants that compensate the Group for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

### 16. Foreign currency transactions and foreign operations

#### *Foreign currency transactions*

In preparing consolidated financial statements, transactions in currencies other than Group's functional currency (i.e. foreign currencies) are recognised at rates of exchange prevailing on date of transactions or an average rate if average rate approximates actual rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into functional currency at exchange rate when fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

#### *Foreign currency operations*

The assets and liabilities of foreign operations (subsidiaries, associates, joint arrangements, branches) including goodwill and fair value adjustments arising on acquisition, are translated into ₹, the functional currency of the Group, at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into ₹ at the

exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Foreign currency translation differences are recognised in OCI and accumulated in equity (as exchange differences on translating the financial statements of a foreign operation), except to the extent that the exchange differences are allocated to NCI.

### 17. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred under finance costs. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to interest costs.

### 3A. New standards and amendments to existing standards issued but not yet effective

#### **New standard - Ind AS 115, Revenue from Contracts with Customers**

Ind AS 115, establishes a comprehensive framework for determining whether, how much and when revenue should be recognised. It replaces existing revenue recognition guidance, including Ind AS 18 on Revenue, Ind AS 11 on Construction Contracts and Guidance Note on Accounting for Real Estate Transactions. This standard is effective from annual periods beginning on or after April 1, 2018 and will be applied accordingly. In this regard, the Group is in process of carrying out assessment of potential impact on adoption of Ind AS 115 on accounting policies followed and accordingly impact on its consolidated financial statements on initial application of this standard is not reasonably estimable at present.

#### **Amendment to existing standard - Ind AS 21 – The Effect of Changes in Foreign Exchange Rates**

The amendment to Ind AS 21 clarifies on accounting of transactions that include receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. In this regard, the Group is in the process of carrying out its assessment of potential impact on adoption of this amendment on accounting policies followed in its consolidated financial statements.

**Note:** The impact on defined benefit obligation, if any arising from change in underlying assumptions are not considered as significant and accordingly, sensitivities have not been presented.

All the above figures are aggregation of actuarial valuation report obtained with respect to the Company and applicable domestic subsidiaries.

**iii) Provident fund**

All eligible employees of the Group are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and employer (at a determined rate) contribute monthly. The company also contributes as specified under the law, in case of certain class of employees, to a provident fund trust set up and to respective Regional Provident Fund Commissioner. The Company's contribution to the Provident Fund, where set up as a trust, is liable for future provident fund benefits to the extent of its annual contribution and any shortfall in fund assets based on government specified minimum rates of return relating to current period service and recognizes such contributions and shortfall, if any as an expense in the year incurred. In accordance with an actuarial valuation, there is no deficiency in the interest cost as the present value of the expected future earnings on the fund is greater than the expected amount to be credited to the individual members based on the expected guaranteed rate of interest. Such contributions made into the fund and to the Regional Provident Fund Commissioner during the year are recognized as an expense in the statement of profit and loss.

#### Fair value measurement hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data

### B MEASUREMENT OF FAIR VALUES

The following table shows the valuation techniques used in measuring Level 2 and Level 3 fair values for financial instruments measured at fair value in balance sheet including the related valuation techniques used

Type	Valuation technique used	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Investments	Market comparison technique: The valuation model is based on market multiple derived from quoted prices of companies comparable to the investee and the expected EBITDA of the investee. The estimate is adjusted for the effect of non-marketability of the equity securities.	- EBITDA margin - Adjusted market multiple - Adjustment for non-marketability of equity securities	The estimated fair value would increase/ (decrease) if: - EBITDA margin were higher/ (lower) - Adjusted market multiple were higher/ (lower) - Adjustment for non-marketability of equity securities were lower/ (higher)
Derivative liabilities	Market comparison technique: The fair value is determined using quoted forward exchange rates at the reporting dates based on information obtained from respective bankers.	Not applicable	Not applicable

### C FINANCIAL RISK MANAGEMENT

The Group has exposure to the following risks arising from financial instruments:

- Market risk
- Credit risk
- Liquidity risk

#### Financial risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors along with the top management are responsible for developing and monitoring the Group's risk management policies. The Group's senior management advises on financial risks and the appropriate financial risk governance framework for the Group.

The Group's risk management policies established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

The Group's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Group's operations and to provide guarantees to support the operations of its group companies. The Group's principal financial assets include loans, trade and other receivables, investments and cash and cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group uses derivative financial instruments, such as foreign exchange forward contracts to hedge foreign currency risk exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

The sources of risks which the Group is exposed to and their management are given below:

### a) Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings. The Group is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk and certain other price risks, which result from both its operating and investing activities.

### i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the foreign currency borrowings, import of raw materials and spare parts, capital expenditure, export sales and the Group's net investments in foreign subsidiaries.

The Group manages its foreign currency risk by hedging transactions through forward contracts, for the repayment of short and long term borrowings and payables arising out of procurement of raw materials and other components. When a derivative is entered into for the purpose of being a hedge, the Group negotiates the terms of those derivatives to match the terms of the hedged exposure.

Where the amounts to be paid and received in a specific currency are expected to largely offset one another, no further hedging activity is undertaken.

Foreign currency denominated financial assets and liabilities which expose the Group to currency risk are disclosed below. The amounts shown are those reported to key management translated at the closing rate. Unhedged foreign currency risk exposure at the end of the reporting year has been expressed in ₹.

### Foreign currency sensitivity

The following table illustrates the sensitivity of profit and equity with respect to the Group's financial assets and financial liabilities and the ₹/USD exchange rate and ₹/GBP exchange rate 'all other things being equal'. If the Indian Rupee had strengthened / weakened against respective currencies by 5% and GBP or USD by 5% during the year ended March 31, 2018 (March 31, 2017: 5%), then this would have had the following impact on profit before tax and equity:

The sensitivity analysis is based on the Company's foreign currency financial instruments held at each reporting date.

	Strengthening		Weakening	
	Year ended March 31, 2018	Year ended March 31, 2017	Year ended March 31, 2018	Year ended March 31, 2017

(All amounts are in crores of Indian Rupees, except share data and as stated)

### Derivative instruments

The Group holds derivative financial instruments such as foreign currency forward to mitigate the risk of changes in exchange rates on foreign currency exposure arising from settlement of borrowings. The counterparties of these contracts are generally banks. These derivative financial instruments are determined using quoted forward exchange rates at the reporting dates based on information obtained from respective bankers.

	Year ended March 31, 2018		Year ended March 31, 2017	
	Less than 180 days	More than 180 days	Less than 180 days	More than 180 days
<b>Forward exchange contracts maturing</b>				
Net exposure	75.38	-	109.59	75.38
Average ₹/ USD forward contract rate	75.38	-	70.48	75.38

### ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates.

The Group constantly monitors the credit markets and rebalances its financing strategies to achieve an optimal maturity profile and financing cost. The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings. At March 31, 2018, approximately 31% (March 31, 2017: 63%) of the Group's borrowings are at a fixed rate of interest.

### Interest rate exposure

Particulars	Floating rate borrowings	Fixed rate borrowings	Total borrowings
INR	122.84	217.50	340.34
USD	279.54	-	279.54
GBP and others	80.14	-	80.14
<b>As at March 31, 2018</b>	<b>482.52</b>	<b>217.50</b>	<b>700.02</b>
INR	37.14	377.65	414.79
USD	196.55	63.88	260.43
GBP and others	25.29	-	25.29
<b>As at March 31, 2017</b>	<b>258.98</b>	<b>441.53</b>	<b>700.51</b>

### Interest rate sensitivity

The following table illustrates the sensitivity of profit and equity to a reasonably possible change in interest rates of +/- 1% for the year ended March 31, 2018 and March 31, 2017. These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

	As at March 31, 2018		As at March 31, 2017
Increase	+1%	4.83	2.59
Decrease	-1%	(4.83)	(2.59)

The Company does not expect any change in interest rates on fixed rate borrowings and accordingly have not presented any sensitivities on such borrowings.

### iii) Equity price risk

The Group invests in listed and unlisted equity instruments. All investments in equity portfolio are reviewed and approved by the board of directors.

At the reporting date, the exposure to listed equity securities at fair value was ₹ 18.51 (March 31, 2017: ₹ 14.95)

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)**

(All amounts are in crores of Indian Rupees, except share data and as stated)

**b) Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including, foreign exchange transactions and other financial instruments.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of the Group's trade receivables, certain loans and advances and other financial assets. The Group enters into long-term contracts with its customers whereby it mitigates the risk exposure on high risk customers. Further, none of the customers contributes to more than 10% of the Group's total revenues as continuous efforts are made in expanding its customer base. Outstanding customer receivables are regularly monitored and reviewed by the Audit committee periodically.

The carrying amount of financial assets represents the maximum credit exposure.

Particulars	Reference	Carrying amount	
		As at March 31, 2018	As at March 31, 2017
Trade receivables	(i)	793.61	654.14
Investments	(ii)	70.11	32.46
Loans	(iii)	3.19	3.68
Cash and cash equivalents	(iv)	30.65	37.14
Bank balances other than mentioned in cash and cash equivalents	(iv)	4.51	2.41
Security deposits	(v)	21.55	27.36
Advances recoverable	(v)	5.33	6.35
Interest receivable	(v)	0.48	0.61
Other financial assets		6.18	3.83
<b>Total</b>		<b>935.62</b>	<b>767.98</b>

**(i) Trade receivables**

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including end-user customers, their geographic location, industry, trading history with the Company and existence of previous financial difficulties. With respect to other financial assets, the Group does not expect any credit risk against such assets except as already assessed. The Group is monitoring the economic environment in the country and is taking actions to limit its exposure to customers with customers experiencing particular economic volatility.

Exposures to customers outstanding at the end of each reporting period are reviewed by the Group to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. The Group has used a practical expedient by computing the expected credit loss allowance for trade receivable and other financial assets, which comprise large number of small balances, based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Further, the Group also makes an allowance for doubtful debts on a case-to-case basis.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

(All amounts are in crores of Indian Rupees, except share data and as stated)

The maximum exposure to credit risk for trade and other receivables are as follows:

	As at March 31, 2018	As at March 31, 2017
Not more than 180 days	784.21	623.19
More than 180 days	15.11	33.90
<b>Sub-total</b>	<b>799.32</b>	657.09
Less: Loss allowance in accordance with expected credit loss model	(5.71)	(2.95)
<b>Total</b>	<b>793.61</b>	654.14

The Group management also assesses the credit losses on account of the financial guarantees extended by the Group. The Group management evaluates the credit risk associated with these companies, ability of them to repay the debts and probable exposure of the Company in case a group company fails to make payment when due in accordance with the original or modified terms of a debt instrument of such Group Company.

### (ii) Investments

Investments of surplus funds are made only with the approval of board of directors. Investments primarily include investments in equity instruments of various listed entities, power generation companies, mutual funds and other trade investments. The Group does not expect significant credit risks arising from these investments.

### (iii) Loans

	As at March 31, 2018	As at March 31, 2017
Loans to employees	3.19	3.67
<b>Net carrying amount</b>	<b>3.19</b>	3.67

The balance is primarily constituted by loans given to its employees. The Company does not expect any loss from non-performance by these employees.

### (iv) Cash and cash equivalents and bank balances other than mentioned in cash and cash equivalents

The Group has its cash and bank balances deposited with creditworthy banks as at the reporting date. The Group does not expect any loss from non-performance by these counter-parties.

### (v) Others

Other financial assets comprising of security deposits, interest receivable and advance recoverable primarily consists of deposits with TNEB for obtaining electricity connections, rental deposits given for lease of premises. The Group does not expect any loss from non-performance by these counter-parties.

### c) Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Group's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Group management monitors the liquidity position of the Group through rolling forecasts on the basis of expected cash flows.

The Group's objective is to maintain a current ratio with an optimal mix of short term loans and long term loans. The Group assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Group has access to a sufficient variety of sources of funding and debt maturing within 12 months and the management is confident that it can roll over its debts with existing lenders. The Board of Directors periodically reviews the Group's business requirements vis-a-vis the source of funding.
